

August 4, 2008

To: Non-Profit Organizations (Schools, Churches and Community-based Organizations)

I applaud the missions of organizations across this country that are involved in providing education, social and spiritual support and economic resources to diverse, struggling individuals and disadvantaged communities.

I am an entrepreneur (minority/woman small business-owner based in Milwaukee, Wisconsin) who is introducing a new consumer product to the market in Fall 2008. Because I'm aware of the ongoing need among non-profits to raise funds, **I am inviting organizations like yours to benefit directly from sales of my product, Toothbrush Hygiene Helper (TBH).**

We are signing up non-profit Organizational Vendors (schools, churches and community-based organizations) nationwide to become part of this terrific new venture, which will allow them to **obtain discretionary/general use funds** for their organization.

For more information, please see our website: www.toothbrushhygienehelper.com to review:

- 1) A copy of the TBH product brochure (can be downloaded from the Home page)
- 2) Our Advance Purchase Options (information on the Products page)
- 3) The video commercials about the product (links will be added in the near future for viewing the 60-second and 30-second commercials).

If you are interested in discussing options for your organization to earn money on every product sold through your organization, please contact me directly at:

Fannie LeFlore, Inventor of Toothbrush Hygiene Helper (TBH)
CEO of Toothbrush Hygiene Helper, LLC
